Noticed what was missing? There are no serial numbers, password or other login info on the site, so all you need is a free account to get all the cracks and a list of email addresses right on your desktop. Search for all of them and copy them. A great way to get started is through our list of legit email harvesters. Update: I got another email address from following this post: I tested on a public email address and it worked. A: You were pretty close. To get the entire list of accounts, all you need is an active Craigslist account, as well as a URL. Go to Type /about/help/faq/account/account-advice into the browser address bar Scroll down to the "Email harvester" section and copy the account ID, user ID, and password. The account ID is the 10 character code at the bottom of the user info page. You 4bc0debe42
